Certificate of Analysis

C101: BlockOut™ Counterstain

Product: C101 – BlockOut™ Counterstain

Description: BlockOut Counterstain binds nonspecifically, fluorescing red using a fluorescein filter setting, thereby providing and enhancing contrast with cells that are fluorescing green due to binding of fluorescein.

Preparation: Evans Blue dye in PBS with 0.04% sodium azide as preservative.

Lot/Quality Control Number: 241

Control/Production Date: 10/2022

Stability & Storage: Store at 4° C.
