S100: SuperStick™ Slides

**Product:** S100- SuperStick™ Slides

**Description:** Custom manufactured slides with chemically treated surface to maximize the adhesion of cysts, oocysts, spores, and other types of cells. Each slide has a green, Teflon-coated background, surrounding the well, which is hydrophobic to ensure that the sample stays within the reaction well before drying. Each slide also has a super-frosted area at one end for writing with a pencil, pen or marker. Slides come with following number and size of each well:

Catalog Number	Item Description	Well Size diameter (mm)
S100-1-9MM	SuperStick™ Slides, 1 well	9
S100-1	SuperStick™ Slides, 1 well	14
S100-2	SuperStick™ Slides, 2 well	15
S100-3	SuperStick™ Slides, 3 well	14
S100-10	SuperStick™ Slides, 10 well	5

**Lot/Quality Control Number:** 173

**Control/Production Date:** 05/2024

**Stability & Storage:** Store at 4° C or room temperature.
